

## Gas Training Courses & Assessments:

# CMA1 (Core Meter Assessments - Limited Scope) Initial and Re-Assessment.

## Who is this training course for?

The CMA1 (Core Meter Assessment) is required for any operative wishing to carry out gas metering work. In addition, the operative must hold the relevant pipework and meter element for the work they wish to carry out.

## Course Duration:

4 days (1 day training / up skill and 3 days assessment).

Please Note: Training is not a pre-requisite for assessment.

**cert-ain**  
certification ltd

- ◆ Gas safety Legislation and standards.
- ◆ Gas emergency actions and procedures.
- ◆ Installation of pipework and fittings (pipework within meter installation and other pipework).
- ◆ Tightness testing and purging
- ◆ Checking and/or setting meter regulators.
- ◆ Unsafe situations, use of emergency notices and warning labels.
- ◆ Operation and positioning of emergency isolation controls and valves.
- ◆ Products and characteristics of combustion.
- ◆ Ventilation (for domestic and non-domestic appliances).
- ◆ Chimney Standards.
- ◆ Re-establish existing gas supply and re-light appliances.

## Training & Assessment methods:

Candidates will be assessed both practically and theoretically throughout the duration of this course.

## Course Achievements:

Successful candidates will be awarded Cert-ain certification of ACS Competence for any modules they undertake enabling them to register with Gas Safe.

## Additional Information:

Candidates will need to hold current or pre-requisite qualifications to undertake the ACS assessments. If you are unsure, speak to a member of our Training Team on 01922 612121 who can advise you accordingly.
