HOT WATER ASSOCIATION - UNVENTED SERVICING GUIDE

The spring and summer months can be the best time to have gas appliances serviced, alongside regular maintenance of hot water systems. The Hot Water Association (HWA), in conjunction with the wider industry, have produced a first of its kind, consumer guide, detailing what they can expect when having their hot water storage cylinder serviced by a registered engineer.

The guide focusses on compliance with legal requirements (i.e. Part G – Building Regs) and sets out agreed industry standards for essential appliance checks, testing, and that all servicing tasks are carried out by a qualified and competent engineer.

Further information on the Hot Water Association, or to download the Unvented Hot water Servicing Guide please visit <https://hotwater.org.uk/hwa-launch-hot-water-cylinder-consumer-servicing-guide/>

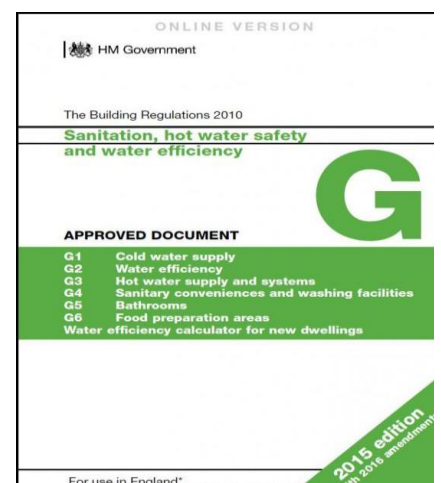

It is essential that engineers are qualified and competent and hold a valid and in date **VENTED & UNVENTED HOT WATER** certificate.

Walsall Training Centre are fully approved to run the 1 - day training & assessment course, with various dates coming up over the next few months:

24th May / 14th June / 12th July

For more information on this course, or to book your place, please call us on

Gas Appliances WANTED

Walsall Training Centre are on the look out for any old gas appliances, that can be used for training purposes. The main appliances we are looking for are:

- Old Combi Boilers (A or B rated)
- Old Radiant type Gas Fires

If you are taking any of these appliances out, and they are in reasonable condition, we would be interested in giving them a new home.

If you can help, please call Steve Edis **01922 612121**

Are You Looking to Upgrade your Flue Gas Analyser?

TPi Europe have recently launched their smart devices range, and in particular, the DC710 Flue Gas Analyser. Our students here at the training centre have been using this for a few weeks now, and all think it's a great bit of kit.

The DC710 has no readable screen, and links "via Bluetooth" to your smart phone or tablet. Some of the key design features are:

- Less complicated menus
- Small and compact unit
- Immediate "Live" reports
- Email / Save / Print reports instantly
- Time / Date / + GPS stamped results
- Fully compliant with BS7967
- Save time with less paperwork

From as little as £295 ex vat, this is an affordable solution for any upgrade, and there are various kit options available. If you are interested in the DC710 you are welcome to come along to the training centre, and have a look and play with the one we are using.

Please call Steve Edis on **01922 612121** to arrange this.

*Discounts off the RRP are available if purchased through
Walsall Training Centre*

Electrical Training Courses

It has been well documented over recent months, that if you are working on any kind of Electrical supply or service, you must be **Qualified** and **Competent** to do so. And also, ALL new Electrical Installations must now comply with the 18th Edition Wiring Regulations - **BS7671:2018** .

Here at Walsall Training Centre we offer a wide range of Electrical training programs, for new entrants and also experienced engineers. The Electrical courses we offer are:

- Safe Isolation of Electrical Supply
- Essential Electrics / Boiler Fault Finding
- Level 1 Electrical Installation
- Domestic Electrical Installer (Part P)
- 18th Edition Wiring Regulations
- Inspection & Testing (Initial and Periodic)
- PAT testing

For more details, information and availability on any of our Electrical courses, please call the training team on **01922 612121**

Upgrade and Add to your current ACS Gas Qualification

Many Gas engineers are now looking to add on additional elements and qualifications, to increase their employability or earning potential. Maybe it is just a one-off appliance, for example CKR1 (Cookers) or even a full changeover assessment i.e. **LPG (CoNGLP1)** So adding on to you current qualification couldn't be easier.

We have various training and assessment programs coming up, so please give us a call if you are interested:

COOKERS – ½ day training + ½ day assessment – Monday 29th April 2019

FIRES – ½ day training + ½ day assessment – Tuesday 30th April 2019

BOILERS – ½ day training + ½ day assessment – Wednesday 1st May 2019

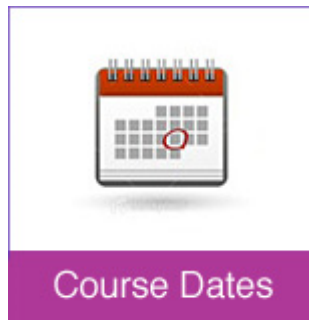

LPG CHANGEOVER – 1 day training + 1 day assessment – 6th & 7th June 2019

CALL US NOW FOR MORE INFORMATION **01922 612121**

COMING SOON - COMMERCIAL GAS TRAINING

We are currently working on, and setting up, the ACS Commercial Gas training & Assessments. We will keep you updated on progress, but we hope to have this in place by the Autumn of 2019 !

UP COMING COURSES AVAILABLE:

LPG CHANGEOVER – 2 DAY COURSE

6TH & 7TH JUNE

VENTED & UNVENTED HOT WATER

24TH MAY / 14TH JUNE / 12TH JULY

WATER REGULATIONS

12TH APRIL

LEVEL 1 ELECTRICAL - 4 DAY COURSE

29TH APRIL

PART P ELECTRICAL INSTALLER – 5 DAY COURSE

8TH APRIL / 13TH MAY / 8TH JULY

PAT TESTING – 2 DAY COURSE

25TH & 26TH APRIL

BOILER FAULT FINDING – 2 DAY COURSE

Call for future dates

18TH EDITION WIRING REGULATIONS

15TH APRIL / 20TH MAY / 3RD JUNE
